Consistent with this vision, the School seeks to provide innovative learning subjects and ensures that students come in contact with cutting-edge topics of the discipline at an international level.

Goals of MUSOM

- Training young professionals and practicing managers for professional pursuits in business
- Preparing socially responsible and creative entrepreneurs able to handle business in a dynamic global environment
- Providing innovative, practice oriented and industry relevant management programs
- Offering foundation graduate and undergraduate programs that blend advanced management and business knowledge with sharp research skills
- Conducting research in the management field for enhancing knowledge and competencies of practicing managers
- Establishing cooperation and partnership with leading universities and management institutes
